

Mini-MAC[®]

Marathon Apartment Compactor

It's Small, But Powerful!

The **Mini-MAC[®]** – Marathon Apartment Compactor is now smaller than ever! We took our standard RJ-1835 and used cross-cylinder technology to shorten the unit. This allows it to fit in even more applications where space is limited such as small trash rooms of apartment and high-rise buildings.

The **Mini-MAC[®]** features a new device that allows the user to easily connect and ratchet the container from one side!

Our 2 cy. compaction container is mounted on poly clad casters to allow it to be moved to the pick-up area. They can be configured for front or rear load collection vehicles.

Mini-MAC Apartment Compactor shown with chute feed hopper, access door and optional compaction container for front load collection vehicles.

Rental & Leasing Programs Available

Specifications: **Model 3A** **Model 5A**

Charge Box Capacity		
Mfrs. rating	0.39 cu yd	0.39 cu yd
