

NexDoor™

Optional Equipment for NEXGEN Galaxy2R Series Balers

NexDoor™ featured on a Galaxy2R™ 310W

NexDoor™

Features and Benefits

▼ **Oversized Bale Release** - device that allows you to eject an oversized bale (up to 9") from the standard size.

▼ **Bale Clamp** - holds onto ejected bale to help form a square end on the next bale.

▼ **Bale Wall** - closes off the ejector nozzle of compression chamber to allow for making a square bale.

▼ **Separation Door** - separates commodities to avoid contamination.

▼ **Bale Sizer** - allows the user to program a bale width of 37" to 46" on a narrow model or 51" to 60" on a wide model.
